

## Yorkville: C110 Speaker

<b>C110 - Speaker - 40w, 5 inch / tweeter</b>	<b>List Price</b> \$59.00	<b>RS Price</b> \$47.20
---	------------------------------	----------------------------

The Coliseum C110 is a high quality, weather resistant speaker, which features specially treated drivers in a rugged ABS plastic enclosure. It is well suited for many applications including commercial installations, home theaters, home stereos, reference monitors and personal stage monitors. The C110 is bass reflex enclosure with a tuned port and a 5" woofer whose computer-optimized design gives improved bass performance over conventional 5" woofer enclosures. With a power rating of 40 Watts of continuous music power the C110 is accurate from 85 Hz to 19 kHz with an efficiency of 92 dB.

The C110 features an internal 70V matching transformer, which allows multiple C110's to be connected together without danger of overloading the power amplifier due to impedance drop. The user has a choice of three sensitivity settings (10W, 20W, 30W or off) selected via a rotary switch located on the rear panel of the speaker, allowing convenient adjustment of the relative volumes of multiple interconnected cabinets.

A wide variety of mounting options are available using the four integral screw-slots or the provided metal L-bracket which allows it to be angled up, down or sideways depending on the mounting orientation. The C110 is available in a low-reflectance black or white finish (C110W) with a matching, perforated metal grille and can be painted to match its surroundings.

### Coliseum Mini Overview:

After years of experience with enclosure design, it was logical for Yorkville to apply its knowledge to the design of a range of speaker cabinets that have been specifically designed for small-scale installation purposes. The knowledge that we gained while developing the TX, élite, Pulse and Performance series enclosures was applied to yield a series of practical yet cost effective installation enclosures.

All enclosures and grilles can be easily refinished and many have the option of coming in either a black or white finish. Designed for fixed installation or live use, the Coliseum Mini Series like the C110, C170 and WM5T have a complete list of features that make them an extremely good value. The practically configured C110 incorporates a multi-tap 70V transformer for fixed installations while the waterproof C120 is perfect for indoor or outdoor application as a loudspeaker or can be mounted on a microphone stand as a mini monitor. The WM5T in-wall speaker is a clean, high performance solution that is sure to solve space constraint issues. Basic mounting hardware is included with most models.

## Yorkville: C110 Speaker

### Specifications:

<b>System Type</b>	2-way, Full Range
<b>Active or Passive</b>	Passive
<b>Program Power (Watts)</b>	40
<b>Nominal Impedance (Ohms)</b>	8
<b>Sensitivity (dB @1Watt/1m)</b>	92
<b>Frequency Response (Hz +/- 3db)</b>	85 - 19,000
<b>Driver Configuration</b>	Tweeter, 5 inch
<b>HF Driver(s)</b>	Mylar Tweeter
<b>HF Dispersion (°H x °V)</b>	90x90
<b>LF Driver(s)</b>	5 inch
<b>Inputs</b>	1
<b>Inputs - Screw Terminal</b>	1
<b>Other Controls / Features</b>	Internal 70V Transformer with Switchable Taps (10W / 20W / 30W / Off)
<b>Flying Hardware</b>	L-Bracket, Rear Key Hole Mounts (4)
<b>Enclosure Materials</b>	Injection Molded, ABS Plastic
<b>Port(s)</b>	1
<b>Grille</b>	Perforated Steel
<b>Covering / Finish</b>	Low Reflective Black
<b>Optional Covering / Finishes</b>	Low Reflective White
<b>Dimensions (DWH xbackW, inches)</b>	5.5 x 6.25 x 8.9
<b>Dimensions (DWH xbackW, cm)</b>	14 x 15.9 x 22.6
<b>Weight (lbs/kg)</b>	3.8 / 1.7

### Coliseum Mini Features:

- Full range of sub-compact installation specific models ranging from 5 watt wall speakers to 100 watt professional quality cabinets
- 70V option available on most models
- Attractive and discrete white paintable finish
- A variety of custom installation hardware available for all models
