

Yorkville: C130 Speaker

C130 - Speaker - 100w, 6-1/2 inch / 1 inch	List Price \$129.00	RS Price \$103.20
---	--------------------------------	------------------------------

The Coliseum C130 is a compact loudspeaker in the 100-watt range with a 6 1/2-inch driver and 1 inch Mylar tweeter.

The trapezoidal shape makes the C130 ideal for install or array mounting in tight locations. Weather resistant plastic enclosure and Mylar components mean the C130 can be used indoors or outdoors, ideal for foyers, patio systems for music and paging systems. Shipped with a rugged proprietary U-bracket for wall or ceiling mounting, they may be the most versatile and cost-effective solution for small installations, or as a repeater or fill cabinet in larger venues.

The C130 is available either in an 8-ohm version, or as a 70-volt multi tapped transformer version designed for fixed installation systems (C130/70). The integrated 70-volt 'matching transformer' allows multiple C130/70's to be connected together without danger of overloading the power amplifier due to impedance drop. The user has a choice of three sensitivity settings (6W, 12.5W, 25W or bypass). Black or white versions are available.

Coliseum Mini Overview:

After years of experience with enclosure design, it was logical for Yorkville to apply its knowledge to the design of a range of speaker cabinets that have been specifically designed for small-scale installation purposes. The knowledge that we gained while developing the TX, élite, Pulse and Performance series enclosures was applied to yield a series of practical yet cost effective installation enclosures.

All enclosures and grilles can be easily refinished and many have the option of coming in either a black or white finish. Designed for fixed installation or live use, the Coliseum Mini Series like the C110, C170 and WM5T have a complete list of features that make them an extremely good value. The practically configured C110 incorporates a multi-tap 70V transformer for fixed installations while the waterproof C120 is perfect for indoor or outdoor application as a loudspeaker or can be mounted on a microphone stand as a mini monitor. The WM5T in-wall speaker is a clean, high performance solution that is sure to solve space constraint issues. Basic mounting hardware is included with most models.

Coliseum Mini Features:

- Full range of sub-compact installation specific models ranging from 5 watt wall speakers to 100 watt professional quality cabinets
- 70V option available on most models
- Attractive and discrete white paintable finish
- A variety of custom installation hardware available for all models

C130 Specifications:

System Type	Two Way
Active or Passive	Passive
Program Power (Watts)	100
Nominal Impedance (Ohms)	8 (70 volt optional - C130/70)
Sensitivity (dB @ 1Watt/1m)	96
Max SPL (dB)	116
Frequency Response (Hz +/- 3db)	75 to 20000
Driver Configuration	6 1/2 inch / 1 inch dome tweeter
HF Driver(s)	1 inch Mylar Dome Tweeter
LF Driver(s)	6 1/2 inch
Inputs - 1/4" Jacks	Yes - Two
Inputs - Binding Post	Yes
Other Controls / Features	Available in 70-Volt version C130/70
Included Hardware	Mounting Bracket
Optional Covering / Finishes	Available Black or White (C130W)
Dimensions (DWH xbackW, inches)	11.5 x 8.5 x 7.5 x 3.5
Dimensions (DWH xbackW, cm)	29 x 22 x 19 x 9
Weight (lbs/kg)	6.6 / 3.2
