

## Yorkville YX12M Monitor

<b>YX12M - Monitor - 200w, 12 inch / 1 inch</b>	<b>List Price</b> <b>\$379.00</b>	<b>RS Price</b> <b>\$303.20</b>
---	--------------------------------------	------------------------------------

The YX12M delivers outstanding performance in a highly cost effective monitor package. Engineered in North America, the YX12M benefits from Yorkville's forty plus years of PA enclosure design experience in the creation of this compact passive monitor enclosure.

The YX12M uses a single 12-inch driver and an injection molded 90° x 30° ABS Waveguide horn with a 1-inch throat and 1.4-inch Celestion neodymium compression driver. Yorkville's tried and true dual-bulb CTL™ protection system protects the horn driver's aluminum diaphragm ensuring unmatched reliability in the field. The YX12 is built road-ready with easy-to-clean, durable black carpet covering, solid internal plywood bracing and reinforced internal component mounts.

Designed with working musicians in mind, the YX12M uses a rugged 5/8-inch plywood cabinet construction, metal input plate, and a custom punched, perforated metal grille to protect the speaker components.

### Features:

- 200 Watt Stage Monitor
- 12-inch Woofer
- 1-inch Compression Driver (1.4-inch Voicecoil)
- Dedicated Wedge Monitor shape
- Low Profile Cabinet Design
- 90° x 30° Injection Molded ABS Waveguide Horn
- Innovative Dual Bulb CTL™ High Frequency Driver Protection
- 2 Speakon™ and 2 1/4-inch Paralleled Inputs
- Solid 5/8-inch (15mm) Plywood Construction

### YX Overview:

The YX Series delivers maximum performance in the most cost effective loudspeaker line ever offered by Yorkville Sound. Engineered in North America, the YX Series benefits from Yorkville's forty plus years of PA enclosure design experience in the creation of these high performance, yet cost effective general purpose loudspeaker enclosures.

The YX Series cabinets use injection molded 90 x 30 degree horns with 1-inch throat and 1.4-inch Celestion neodymium compression drivers. Yorkville's tried and true dual-bulb CTL™ protection system protects the horn driver's aluminum diaphragm ensuring unmatched reliability in the field. These cabinets are built road-ready with easy-to-clean, durable black carpet covering, solid internal plywood bracing and reinforced internal component mounts.

Designed with working musicians in mind, the YX Series offers rugged 5/8-inch plywood cabinet construction, all-metal bar handles, metal input plate, integrated speaker mounts and a custom punched, perforated metal grille to protect the speaker components. A modified trapezoidal shape (YX10, YX12, YX15 and YX15P) ensures the YX Series can function equally as well as a front-of-house or monitor speaker.
